

Michael Bobov | Product Designer

michaelbobov@gmail.com | [LinkedIn](#) | [Portfolio](#)

Phone: +1-909-488-9490

Product Designer with experience leading end-to-end content strategy and UX design for healthcare and consumer-facing apps. Skilled in crafting onboarding flows, dashboards, and microcopy that simplify complex information and guide users with clarity and empathy. Proficient in Figma, with a strong foundation in storytelling, structured content frameworks, and user-centered design principles.

RELEVANT EXPERIENCE

Scylla Microgrids

July 2021 - September 2022

Marketing Intern | [Company Brochure](#) | [Proposal](#)

- Led a team of 3 interns to conceptualise, create, and finalise company brochures, demonstrating effective project management and collaboration skills across diverse creative projects.
- Drove creation of promotional content for products, while expertly implementing features like activity-saving, logging, posting, and comments, demonstrating effective cross-functional leadership
- Managed proposal draftings and impactful campaign launches, showcasing versatility across strategic initiatives

Pleinert & Partner

January 2024 - March 2024

Junior Consultant | Internship | [Reference Letter](#)

- Designed a strategy for repurposing video content using AI tools, improving efficiency in LinkedIn marketing efforts.
- Conducted an SEO analysis of the company website, implemented content improvements, and boosted organic search traffic.
- Edited podcast sessions and created teaser videos for LinkedIn promotions, enhancing brand awareness.

PROJECTS

Versum Health

July 2025 - Current

Co-Founder & Product Designer | [\(Live Product\)](#)

- Designed and authored the full website and dashboards for patients and students, ensuring medical and scheduling data was presented with clarity, empathy, and accessibility.
- Created onboarding flows, navigation labels, and microcopy to guide users through appointments and platform features, improving comprehension and engagement.

EZ Recipe

Founder & Product Designer | [\(Live Product\)](#)

March 2025 - June 2025

- Designed onboarding flow and preference questions with clear, concise microcopy to personalize meal results while minimizing user friction.
- Authored adaptive recipe content and substitution guidelines, ensuring inclusivity across dietary needs and user health goals.
- Structured the app's content hierarchy (ingredients, macros, and recipes) to improve scannability and navigation.
